CORPORATE OVERVIEW

NetPixel is a Premier IT Consulting Solutions Company serving companies nationwide. The Company is a hybrid of both a technical consulting firm and a traditional staffing organization with a technology orientation. NetPixel has built its reputation as a source for untapped senior level IT personnel for fortune 500, middle market and emerging technology companies. The Company's mandate is fixed-price assignments which enable the success of its clients' short and long-term objectives. While contract employees and fixed price projects represent the Company's core competencies, permanent positions are an increasingly important aspect of NetPixel's work. The Company's record of successful client engagements and the performance of its IT teams at the highest level is unrivaled.

"At NetPixel, the success of each project remains our first priority. The Company's commitment is driven by its dedication to providing the finest information technology services while building a portfolio of enduring client relationships."

We provide qualified talent — NOT just resumes.

Vision

To offer comprehensive IT solutions delivering excellence through proven strategy, methodology and personnel.

Mission

To be each client's preferred partner creating intelligent and value-additive IT services.
To earn each client's trust providing services which exceed expectation on every measure.
To ensure each client's satisfaction through successful implementation and operation of every IT solution.

Consulting Services

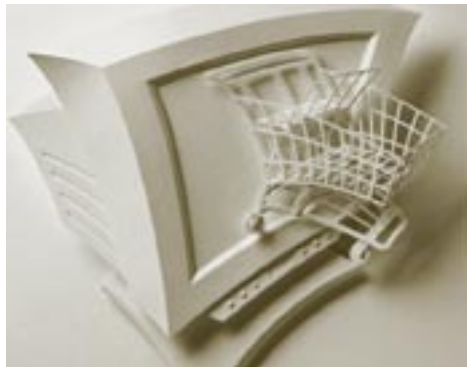

There is an on-going need for competent staff who can accommodate a broad spectrum of technology. NetPixel can supplement short and long-term staffing objectives with highly qualified and experienced IT personnel offering consulting services which provide flexible staffing solutions without clients dedicating valuable time and resources on the hiring, training and managing of additional employees.

Full-time Placement Services

NetPixel's technical recruiting division specializes in the placement of full-time IT professionals. The Company prides itself on its proven ability to establish long-term relationships both with its clients and applicants while maintaining the highest caliber of professional service.

Fixed Price Projects

By sharing risk with clients via a fixed-price and fixed-time delivery model, the Company maintains an established protocol based solely on each project's success and each client's full satisfaction. Fixed-Price contracts deliver a superior method for managing application development projects, specifically defining project scope, scheduling and costing parameters prior to contract commencement. Our contractual format includes a *Scope of Work* and *List of Deliverables* statement, and every client always reviews and approves each citation before an invoice is generated.

On-site Training

To become a leader, employees must be trained quickly, cost-effectively and continuously. NetPixel offers on-site training for individuals or small groups requiring introductory, intermediate or more advanced courses in the following IT disciplines:

- Internet/Intranet Technologies
- Relational Database Management System
- Microsoft Technologies
- Enterprise JavaBeans
- Software Engineering using CASE tool (OMT & UML)
- Client Server Technology

E-Commerce Solutions

Online commerce continues to be a leading growth area of the internet. A client may consider introducing online purchasing capabilities into its website or building an entirely new e-commerce platform and whether credit card processing or website integra-

tion, NetPixel can provide the best solution and talent for each. With its own strategic partnerships maintained within the e-commerce sector, NetPixel is poised to accommodate any client's on-line business needs:

- B2B and B2C projects (ex. Shopping cart system, real-time processing)
- Internet/Intranet applications (ex. Phone directory)

Additional Areas of Expertise

- Business consulting
- ERP - SAP, JDEdwards, Baan, Oracle and PeopleSoft
- CRM implementation
- Systems integration
- Data warehousing
- Custom software development
- Production support
- Network tuning
- Technical support

Total Cost of Ownership

NetPixel's primary goals directly match those of its clients—the fastest and most efficient return on investment while optimizing investments of capital and personnel.

Industry Expertise

NetPixel's core of expertise extends to all major industry groups. The Company's professionals are equipped with the best business practices, "cookbooks" and years of quality experience from within every client's specific industry.

Product Expertise

NetPixel's consultants always arrive on a project with relevant and broad product experience. Our professionals undergo rigorous training in delta releases ensuring every client will enjoy technology solutions that are the most proficient and cutting-edge.

High Performance Team

The Company's commitment to excellence benefits our clients on many fronts. Our superb team of dynamic professionals directly assist project execution providing a potent resource of accelerators, tips, techniques and key trends, all of which are continuously cultivated and refined from one assignment to another. Simply, the cumulative talent and knowledge base of NetPixel is an invaluable tool for every client.
